MEMORANDUM FOR: [redacted]  
Collection Resource Division/CTG/ORD

FROM: [redacted]  
Engineering Support Group/FBIS

SUBJECT: Tape Recording of VNS Transmissions

25X1

25X1

1. Attached are four 1/4 inch tapes made at the FBIS Seoul Bureau from 14 November 1988 to 16 November 1988 of the VNS signal including jamming.

2. As we have previously discussed, these tapes should be analyzed on your DAC system to determine if it is possible to remove or minimize the jamming so that a useful signal can be collected.

3. I will be available to work with you on this. Thank you.
